# Skills Australia Needs

London information sessions: 25–26 February 2012

Are you looking for skilled workers in healthcare, engineering or trades?

Skills Australia Needs sessions provide an ideal opportunity for employers and state and territory governments with employment and sponsorship opportunities on offer to meet with overseas skilled workers pre-screened for qualifications and experience.

We are seeking expressions of interest from Australian organisations to exhibit at the event in London in February 2012. Due to capacity limitations organisations will be selected on a first in, first served basis.

For more information or to discuss your organisation's participation in the event please visit the website: [www.immi.gov.au/skillexpos](http://www.immi.gov.au/skillexpos), email: [skill.events@immi.gov.au](mailto:skill.events@immi.gov.au) or phone: 02 6264 4229 by mid November.
